

THE SCRIPT *(please follow as closely as possible)*

Are you a high school student looking to get an early start on your college education? ***Dual enroll at Kellogg Community College!***

Dual enrollment is when a high school student takes KCC classes while still in high school. The student earns college credits before they graduate, getting a jump start on their college education.

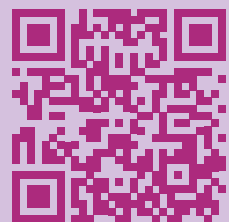

And the best part? It's free for the student.

That's right: The average dual enrolled student at KCC will graduate high school with 15 or more college credits, saving an average of \$2,700! In most cases, tuition, fees and books are covered by your high school.

Dual enrollment is a great way to save time and money on your college education.

Contact your high school counselor today or visit kellogg.edu/highschool for more information.
