Help Your Student Get Ready: Registration now open!

College registration is a big step each semester, and your student might need a reminder or a little encouragement to stay on track. Registration for the 2025 Summer and 2025 Fall semesters is now open.

Now is the perfect time for your student to choose their classes and start planning for a strong term.

Why early registration matters:

Registering early gives students the best chance to get the classes they need at the times that work best for them. Waiting too long could mean missing out on required courses or preferred schedules.

How you can help:

- Check in with your student to see if they've met with an academic advisor.
- Encourage them to log in to their student account and browse available courses.
- Remind them about any financial aid steps or payment plans that need to be completed.

Staying ahead of deadlines helps reduce stress and sets your student up for success. If they're unsure where to start, our advising team is here to help every step of the way!
